

PC Appendix A (Synonyms)

PC Appendix A: Sample Selection	
Brief Description	ICD-9-CM (19) Codes
Alzheimer's and mental health	
	290.0-290.9
	294.0-294.9
	296.00-296.99
	300.4
	309.1
	309.28
	310.0-310.9
	311.0
	331.0-331.3
	331.7
	331.89
	797
<b>Cancer</b>	140.0-209.39, 230.0-239.9
<b>Congestive heart failure</b>	398.91, 402.01, 402.11, 402.91, 404.01, 404.03, 404.11, 404.13, 404.91, 404.11, 404.13, 404.91, 404.93, 428.0-428.9
	Congestive heart failure, CHF, left ventricular failure, biventricular failure, cardiac failure, pump failure, cardiac decompensation, Kerly B lines, pulmonary vascular congestion, ischemic cardiomyopathy, venous congestion, dilated cardiomyopathy, pulmonary edema, lung edema, interstitial edema, perihilar edema/fluid, fluid or volume overload, perihilar congestion, interstitial congestion, pulmonary vascular engorgement or cephalization or alveolar edema, left-sided heart failure, right-sided heart failure, systolic heart failure, diastolic heart failure

**PC Appendix A (Synonyms)**

		<p>AMI, angina, arteriosclerotic cardiovascular disease, arteriosclerotic heart disease, ASCVD, ASHD, atherectomy, atherosclerotic cardiovascular disease, atherosclerotic heart disease, CABG, CAD, cardiovascular (heart) disease, CHD, chronic myocardial ischemia, chronic stable angina, coronary arterio-sclerosis, coronary artery bypass graft, coronary artery disease, coronary disease, coronary endarteritis, coronary heart disease, coronary insufficiency, coronary vascular disease, CVD, ischemic heart disease, MI, myocardial infarction (current or history), PCI, percutaneous transluminal coronary angio-plasty, post cardiac/coronary injury, PTCA, rotablator coronary artery, S/P MI, status-post myocardial infarction, stent (coronary), unstable angina</p>
<p><b>Coronary heart disease</b></p>	<p>410.00-414.9, V45.81, V45.82</p>	
<p><b>Diabetes</b></p>	<p>250.00-250.93, 357.2, 362.01-362.07, 366.41, 648.00-648.04</p> <p>016.00-016.06, 095.4, 189.0, 189.9, 223.0, 236.91, 250.40-250.43, 271.4, 274.10-274.19, 283.11, 403.00-404.93, 440.1, 442.1, 572.4, 580.0-588.9, 591, 753.12-753.29, 794.4, V45.1, V56.0-V56.8</p>	<p>Adult onset diabetes mellitus, AODM, adult onset diabetes, AOD, diabetes mellitus, diabetes, Type II diabetes, IDDM, insulin dependent diabetes mellitus, NIDDM, non-insulin dependent diabetes mellitus, Type I diabetes</p> <p>Kidney infection, nephropathy, nephritis, pyelitis, pyelonephritis, renal disease, chronic kidney disease, nephrosis, acute/chronic glomerulonephritis, glomerulosclerosis, nephrolithiasis, nephrosclerosis, end-stage renal disease (ESRD), chronic renal failure (CRF), renal insufficiency, acute renal failure (ARF), dialysis, hemodialysis or peritoneal dialysis, uremia, nephrotic syndrome, renal sclerosis, impaired renal function, cystic kidney disease</p>
<p><b>Kidney disease</b></p>		
<p><b>Lung disease</b></p>	<p>491.1-492.8, 493.10-493.22, 493.82-493.92</p>	<p>Chronic bronchitis, obstructive chronic bronchitis, chronic obstructive pulmonary disease (COPD), emphysema, asthma, chronic asthma, chronic obstructive asthma, chronic asthmatic bronchitis, status asthmaticus</p>

**PC Appendix A (Synonyms)**

<p><b>Other chronic cardiac or circulatory disease</b></p>	<p>401.0-401.9, 402.00, 402.10, 402.90, 430-432.9, 434.00-440.9</p>	<p>Malignant hypertension, benign hypertension, subarachnoid hemorrhage, cerebral aneurysm, intracerebral hemorrhage, intracranial hemorrhage, epidural hemorrhage, subdural hemorrhage, cerebral thrombosis, cerebral embolism, cerebral infarction, cerebrovascular disease, transient cerebral ischemia, transient ischemic attack (TIA), cerebral atherosclerosis, cerebral aneurysm, atherosclerosis, arteriosclerotic vascular disease</p>
<p><b>Other chronic diseases (osteoporosis and arthritis)</b></p>	<p>714.0-714.33, 715.00-715.98, 733.00-733.09</p>	<p>Rheumatoid arthritis (RA), arthritis, degenerative arthritis, degenerative joint disease, polyarthritis, osteoarthritis (OA), joint deterioration, osteoarthritis, hypertrophic arthritis, osteoarthritis, osteoporosis, low bone density/mass, osteopenia, porous bone, bone loss, osteogenesis imperfecta (OI), brittle bones</p>
