

QM/QI Pressure Ulcer Tracking Tool

Directions:

- Using the CASPER Facility and Resident Level QM/QI report, enter the name of each resident who qualifies for the High Risk Pressure Ulcer Quality Measure.
- Refer to the MDS to identify the stage. Check if in-house acquired. If admitted with pressure ulcer note in comments section indicating changes in stages and wound tx between quarters.
- Review resident's care plan and chart, and conduct a staff interview to complete the rest of the worksheet.

Document any comments or areas of concern that require follow-up in the provided space.

Resident	Quarter	Pressure Ulcers Y or N If Yes, Hi-Risk or Lo-Risk	Stage	In-House Acquired (Y or N)	Associated QM/QIs														Psych Drug Use			Little Activities	Phys Restraints		
					Falls	New Fracture	Depression	Problem behavior	9+ Meds	B&B Incont.	Incont. No TP	UTIs	Weight Loss	Dehydration	Tube Feed	Mostly in Chair	↓ ROM	ADL Help ↑	Move Ability ↓	Mod/Sev Pain	Meds; No dx			antianx/hpn	Hpnt 2x Wk
